However, this can also be used to say that someone keeps certain behavior although the verb "continuar" can also work. For example: **"Ella sigue/continúa peleando"**

We use the perfect preterit when we want to communicate that someone or something was followed in the past, without being a continuous action: **Él me siguió, pero se cansó**. (He followed me, but got tired).

We generally use the imperfect preterite to talk about actions (in the gerund) that may seem repetitive: **Yo seguía hablando, pero tú no escuchabas** (I kept talking, but you weren't listening).

We use the future tense to talk about promises (which may sound a bit intimidating): **Te seguiré donde quiera que vayas** (I will follow you wherever you go).

We use the simple conditional tense to express that you may follow someone or something,
