

SPANISH VERBS - CONSEGUIR CONJUGATION

Consigue lo que quieras.

Conjugation of the verb Conseguir

Spanish is a wide and wild language. Why? Well, simply because we have many words that can replace just one phrase in English. Take for example the expression: “I’m sorry”, there are several words you can use to say this such as: lo siento, perdón, perdóname, disculpa, discúlpame, perdona. And on the other hand, we have words that have multiple definitions in English and can replace many verbs; **Conseguir** is one of these words.

When thinking about in which contexts we can use conseguir, I can think of a few different examples:

To achieve: Conseguí correr tres cuadras esta semana. (I was able to run three blocks this week.)

To find: Conseguí el vestido que tanto buscaba. (I found the dress I was looking for.)

To get: Ramona consiguió los tickets para el recital (Ramona got the tickets for the concert.)

To pick up: Voy a conseguir un mapa para nuestra excursión. (I’m going to pick up a map for our tour.)

And it can also be used as: obtain, secure, procure, land, win, manage, gain, attain, make happen, meet, accomplish and there are still a few more verbs. Therefore, knowing this verb, which I would compare it with the usage of “get” in English, can help you a lot since you can use it in many contexts and to replace all the verbs mentioned above.

It is frequently seen in Sports, like: El equipo consiguió la victoria. (The team won), to talk about obtaining cups and milestones. But you can also see it in everyday actions and a colloquial language. Once more, replacing expressions like find, wish, etc. Let’s see an example:

Marcos, no consigo encontrar las llaves del auto. ¿Me las consigues? (Marcos, I can’t find the car keys, can you get them for me?)

Another of the irregular ones in the family

Conseguir is an irregular verb, and they are called this way given that the verb can change its root or ending (or both!). In this case, conseguir follows the same pattern as pedir and it changes the ending, which means that it does not follow the same ending rule as a regular verb.

For example: vivir (to live) is a regular -ir verb.

Vivo en una casa grande (yo, simple present)

Consigo lo que me propongo (also yo, simple present)

As you can see, the ending instead of changing to “o”, **vivir>vivo; conseguir>conseguo**, changes to conseguir>**consigo**

Verbals of Conseguir

Verbals are the forms of infinitive, gerund, and participle of the verbs, they need another verb to make sense. Let's have a look:

	Verbal	Common use	Example	English
Infinitive	conseguir (to achieve/find/get)	Non conjugated	Me gustaría conseguir el número de la rotisería.	I'd like to find the number of the steakhouse..
Gerund	consiguiendo (getting)	Adverb	Estoy consiguiendo mejorar en mi español	I am getting better at my Spanish
Participle	conseguido (to achieve)	Adjective	Juan ha conseguido que lo promuevan.	Juan has gotten a promotion.

To Conjugate? Of course!

I know Spanish has tons of conjugations. Having a list handy is always helpful, but don't worry, once you start using these words, it gets easier!
